To The Sargood Bequest

We are writing to thank you for your involvement with the Paper 4 Trees Programme.

Sawyers Bay Playcentre have really enjoyed being part of this program and it enhances the practices we already have in place at Centre. The children have enjoyed a lot of learning opportunities from being involved with Paper 4 Trees. They have been learning about recycling into the green bins and then the kerbside recycling pickup via the yellow wheelie bins with the recycling of paper and cardboard.

We have fruit trees growing and two small areas where we grow seasonal vegetables, plus keep a worm farm which encourages the composting/recycling of food scraps and turning these into compost for our gardens and plants. The children have been learning about sustainability through this.

Our trees from the Paper 4 Trees programme arrived and we planted these the last week of term three. The children present all helped with various stages and these trees will enhance our Playcentre grounds.

Thank you for your involvement it is much appreciated.

Yours sincerely
